PAR 102 - Emergency Medical Technician - Basic
Ivy Tech Community College - Bloomington

Read Carefully (& SAVE) to Insure that You Understand the Following Fully:

1) This course requires that you complete the following at your own expense as scheduled:
   a. CPR – American Heart Association Health Care Provider or American Red Cross Professional Rescuer.
   b. Completion of all required Bloomington Hospital orientation paperwork as noted on their web site for Shadowing* (www.bhstudents.org) by the deadline as noted on the class schedule.

   Note: Clinical Is *Observation Only and you will be required to wear identification and inform staff if requested to perform any patient care as per hospital policy.

2) The course requires that you complete the following by the last day of class:
   a. All clinical rotations completed.
   b. All clinical documentation complete and turned in to the instructor.
   c. Completion and documentation of online Hazmat Operations and Terrorism Awareness training AWR110 WMD Terrorism Awareness, AWR111 Basic concepts for WMD, & PER303 Concerns for 1st responders. (www.teexwmdcampus.com) No Charge
   d. Completion and documentation of FEMA Incident Command Courses IS 100 Intro to the Incident Command System, IS 200 Basic concept of IC & IS 700 Introduction to NIMS (http://www.training.fema.gov/) No Charge
   e. All tuition and fees paid in full.

   Note: Clinical experience is a required portion of the course whether you intend to seek certification or not. Clinical is pass/fail and will result in failure of the course if not completed.

3) After successful completion of the course (if you are 18 years of age and without a felony conviction) you will be eligible to take the state certification exam. The exam will be your own expense and is not the responsibility of Ivy Tech Community College. The test consists of two parts:
   a. Written – Paper test (2-4 weeks for results) -no charge – dates and sites on (www.in.gov/dhs, go to training calendar) or by calling 1-800-666-7784, or Computer test (instant results) -$15. Schedule at Ivy Tech Testing Center 330-6137
   b. Practical - $65-$175 depending on site ($75 when offered here) – dates and sites can also be found on SEMA web site (noted above)
   c. National Registry – if you are planning to practice out of state (614) 888-4484 or (http://www.nremt.org/about/nremt_news.asp)

   Note: You have one year from the completion of the course to complete your testing requirements. Testing and certification is your responsibility.

Additional Information:
1) You can only attend clinical sites that are under affiliation contract (state requirement) with Ivy Tech Community College. At this time the only site is Bloomington Hospital.

2) The current medical director will not sign the State form (required) for anyone who finishes the course late. An incomplete will result in failure and you cannot be certified.

3) The curriculum is specified by the Federal DOT and Indiana SEMA guidelines with a minimum student exposure. Due to this, it is imperative that the student attends all classes. Missing more than (3days/ 16 week semester, 2days/10 week semester) for any reason will result in failure of the course.
