Overview

Accountants analyze and interpret financial information and consult with upper management concerning important business decisions and financial performance. Some accountants keep the books, recording every financial transaction. Accountants can also prepare tax returns or audit for tax compliance.

The Accounting program at Ivy Tech Community College - Bloomington develops an understanding of accounting principles, business law, communications, business equipment, and related areas of study in the field. You also will gain instruction in computerized accounting systems. Technical skills in financial accounting, cost accounting, and tax preparation are emphasized.

Accounting Degrees & Certificates

ASSOCIATE OF APPLIED SCIENCE (AAS) DEGREE
Two-year Associate of Applied Science degree programs prepare students for careers, career changes and career advancement. AAS programs may also prepare students for transfer to four-year institutions. The program content, which is approximately 30 percent general education, provides depth and breadth in conceptual and professional/technical skills. Professional/technical courses equip students with the skills to obtain employment and to advance in the workforce.

TECHNICAL CERTIFICATE (TC)
One-year Technical Certificate programs provide education in conceptual and technical skills for specific occupations. Each program contains a sequence of required courses in a recognized concentration within a program.

CERTIFICATE (C)
Certificates are sequences of technical and professional courses. They provide access to targeted, short-term workforce training, and completers may sit for specific certification exams. Certificate programs generally take less than one year to complete.

Transfer Options

Graduates of our program may continue on to pursue bachelor’s degrees at Indiana State University, Ball State University, Indiana Wesleyan University and IUPUI among others. Transfer students may be required to take a few additional courses to fulfill all transfer requirements.
