RADIATION THERAPY PROGRAM

Information and Application Packet
2011

REVISED: August 23, 2010
Dear Interested Candidate:

Thank you for your interest in the Radiation Therapy Program. Enclosed you will find information about the program; the current curriculum sequence, the application form, and answers to frequently asked questions. Please note that we have made some changes to our entrance requirements for the 2011 selection process.

Radiation Therapy is an exciting field in healthcare; it is growing and changing every year. We want to help you with your goals to become a part of this healthcare team. Please carefully read through all the information supplied in this packet. This application packet is the most current and replaces any other previously printed application packet. If you have any questions, please contact enrollment services or a program faculty member.

Dr. Larry Swafford, PhD., R.T. (R) (T)  
Professor and Department Chair  
Ivy Tech Community College  
812-330-6223

Karlee Wyatt B.S. R. T. (R)(T)  
Clinical Director  
Ivy Tech Community College  
812-330-6288
Radiation Therapy

DEGREE AVAILABLE:
Associate of Science

SALARY RANGE:
The mean entry level salary for the profession is $57,427 according to the 2010 salary survey by the American Society of Radiologic Technologists (ASRT)

ACCREDITATION:
Ivy Tech Community College is an accredited, equal opportunity, affirmative action institution of higher education.

This Radiation Therapy Program is accredited by the Joint Committee on Education in Radiologic Technology (JRCERT).

ADDRESS:
200 Daniels Way
Bloomington, IN 47404

www.ivytech.edu

Radiation therapy utilizes ionizing radiation in a strictly controlled environment to treat disease, primarily cancer. High-energy x-ray, gamma, proton and electron beams are common forms of ionizing radiation used. Ionizing radiation can be administered using external beam therapy or by placing a radioactive material directly into a body tissue or cavity. The ultimate goal of radiation therapy is to destroy all abnormal cells while sparing the surrounding normal tissue.

Radiation therapists are part of a multi-disciplinary cancer management team. They are responsible for accurately positioning the patient for treatment, equipment operation, quality assurance, and calculating radiation dose to be delivered. Radiation therapists also have considerable responsibility for providing competent, concerned patient care. The therapist monitors patients throughout treatment, which often lasts several weeks.

This program includes a curriculum that includes patient care, pathology and treatment principles, radiation physics, radiation biology and safety, and ethics (complete list is in this packet). Clinical practice and supplemental instruction are provided at the affiliated clinical sites. Upon successful completion of this program, graduates are eligible to take the American Registry Examination given by the American Registry of Radiologic Technologists (ARRT).

This Radiation Therapy Program is a selective program with limited enrollment due to accreditation standards set by the Joint Review Committee on Education in Radiologic Technology (JRCERT). Once accepted, it is a full-time, day program with students rotating to the various clinical sites. Classroom instruction occurs on campus and at the program’s lab facility in downtown Bloomington.

For some health programs, you may not be eligible to be licensed or certified if you have been convicted of a felony. Please check with the Program Chair if you have questions concerning this before enrolling in the program or you may contact the American Registry of Radiologic Technologists (ARRT) http://www.arrt.org.
RADIATION THERAPY PROGRAM MISSION STATEMENT

The mission of the radiation therapy program is to provide the student with a cost effective, high quality education in radiation therapy technology. The program will prepare graduates for positions as entry-level radiation therapists who possess the knowledge and skills necessary to function as competent and ethical professionals. The mission and goals of the program are consistent with those of the college.

PROGRAM GOALS

1. Students will possess the knowledge and skills to demonstrate competency in all essential aspects of radiation therapy including treatment/simulation procedures, patient care and radiation safety.

2. The program will provide an education that promotes ethical and professional decision making, effective communication skills and critical thinking.

3. Graduate students who are employable and meet the needs of the health care community.

4. Graduates will learn to value lifelong learning and discover/understand the importance of service learning/community service.

Students are provided opportunities to develop skills in team building, critical thinking, cultural sensitivity, and effective communication. Clinical experience fosters affective growth in providing care and responding to the needs of a diverse patient population. The program continuously promotes professional growth and life-long learning.
ESSENTIAL FUNCTIONS REQUIREMENTS FOR RADIATION THERAPY STUDENTS

Qualified applicants are expected to meet all admission criteria and prerequisites, as well as, these essential abilities (technical standards) with or without reasonable accommodations. Students requesting accommodations to meet these criteria must inform the Program Chair in writing of the need for accommodations at the time of admission to the Radiation Therapy program and must provide appropriate documentation to Disability Services.

If You Are Planning To Apply To the Radiation Therapy Program, PLEASE Read This Information Carefully

The Radiation Therapy Program has a limited enrollment based on the standards set by the Joint Review Committee on Education in Radiologic Technology (JRCERT). Applications to the program and/or completion of prerequisite courses do not guarantee admission into the technical portion of the program.

**PRE- RADIATION THERAPY STEPS:**

Since the Radiation Therapy Program is a selective program, it is important that you closely follow the application steps and the requirements that follow:

1. The following steps are required for new Ivy Tech Community College students
   - Complete the application process for Ivy Tech Community College in the Admissions Office at any campus or on-line at www.ivytech.edu/apply-now.html.
   - Provide any official college transcript(s) to Ivy Tech-Bloomington.
   - Complete the COMPASS Assessment test, if applicable.
   - Make an appointment with your campus Enrollment Services Advisor to help you with this process and to help you interpret your COMPASS scores.
   - If necessary, complete any of the Academic Skills courses required from the results of your COMPASS test.

2. Meet all of the physical requirements (see essential functions sheet in this packet).

3. Complete the prerequisites by the due dates (see below).

4. Completion of TEAS V. - (Test of Essential Academic Skills)

5. Schedule required student advisement session with program faculty within six months of application deadline.

**IMPORTANT DATES**

<table>
<thead>
<tr>
<th>Application Accepted Beginning</th>
<th>Application Deadline</th>
<th>Class Selected</th>
<th>Start of Radiation Therapy program</th>
</tr>
</thead>
</table>
Selection of Radiation Therapy students will be based on the following criteria:

- TEAS Admission Examination (completed by application deadline)
- Program Advisement Session (required)
- Completed Coursework

1. TEAS ADMISSION EXAM (refer to page 9 of this document for TEAS requirements)

2. PROGRAM ADVISEMENT SESSION

   - All applicants are required to meet with Radiation Therapy faculty.
   - Students may choose a time and date with program faculty using appointment manager.
   - Advisement sessions must be scheduled during the spring semester 2011, prior to application submission.

3. COMPLETED COURSEWORK
   a. Prerequisite courses must be completed prior to the deadline for the application.

      APHY 101 Anat & Physiology I 3
      PHYS 101 Intro. To Physics I 4
      MATH 121, 131 or 137 3
      *For this year only MATH 111 + 134 combination is acceptable
      HLHS 101 Medical Terminology 3

   b. Completed general education courses at time of application.

   c. Cumulative G.P.A.

   Applicant scores will be totaled and ranked. Based on rankings, the admissions committee will select Radiation Therapy program students.

   *Successful completion of coursework does not imply admission into the Radiation Therapy Program.

A. Students must score in the proficient, advanced, or exemplary ATI Academic Preparedness Category on the TEAS V to be considered for admission to the Radiation Therapy Program.

1. The student’s ATI Academic Preparedness Category appears on the TEAS Score report immediately below the Adjusted Individual Total Score.
2. The Adjusted Individual Total Score will be included in the selection point system.
3. Students whose ATI Academic Preparedness Category is at the developmental or basic level will not be considered for admission.

B. Beginning September 2, 2010, students applying for radiation therapy admission for Fall 2011 and beyond must take the TEAS V. Scores from previous versions will not be accepted for selection.

C. TEAS V.
1. Information on the TEAS V is available at www.atitesting.com
2. Study guides are available via campus bookstores and also at www.atitesting.com
3. The TEAS V may be taken up to 2 (two) times in a two-year period regardless of the testing location.
   - Please note that applicants who have completed previous versions of the TEAS will be required to take TEAS V for the purpose of applying to the radiation therapy program for admission.
   - Previous versions of TEAS will no longer be available for radiation therapy applicants after September 2, 2010.
   - Previous versions of the TEAS will not be included in the two attempts rule. Applicants will be able to take the TEAS V test version up to 2 times in a two-year period, regardless of the number of times the applicant has taken previous versions of the TEAS.
4. There must be at least 30 (thirty) days between the test dates for the TEAS V (as with number of attempts, this excludes previous versions).
5. The student must pay the approved testing fee each time.
6. Exam scores will be valid for 2 (two) years from the date of the initial TEAS test.
7. The TEAS test must include all four test components to be considered valid: Reading, English, Math, & Science. Partial tests will not be accepted.
8. Applicants who take the TEAS at schools other than Ivy Tech must contact Assessment Technologies Institute to have an official copy submitted directly to the radiation therapy program chair.
9. Applicants must score at the Proficient Level or higher to be considered for admission.
10. TEAS scores will be used in the selection point system
11. Applicants are to submit only one TEAS score report in the application packet to be considered for determination of minimum eligibility and inclusion of points in the decision score. If the student includes more than one TEAS score report is included in the application packet, only the latest attempt will be considered for determination of minimum eligibility and inclusion of points in the decision score.
Radiation Therapy Clinical Rotation Sites

Students will be required to rotate to various hospitals and clinics for the clinical portion of their education. The currently approved clinical sites include the following:

- Bloomington Hospital Radiation Oncology Center- Bloomington
- Midwest Proton Radiotherapy Institute- Bloomington
- White River Medical Park- Bedford
- Morgan Regional Medical Center- Martinsville
- Schneck Medical Center- Seymour
- Good Samaritan Hospital- Vincennes
- Major Hospital/Benesse Cancer Center- Shelbyville
2011 RADIATION THERAPY PROGRAM ADMISSION APPLICATION

CHECKLIST FOR
RADIATION THERAPY PROGRAM

College Admission Requirements:

1. Application to Ivy Tech Community College – Bloomington Campus
2. Official College Transcript(s)
3. COMPASS taken or SAT / ACT Scores evaluated
4. If you are attending another Ivy Tech, please request your student file to be sent to Bloomington or submit items 1-3 to the Bloomington campus Registrar’s Office.

Program Admission Requirements:

Step 1 ______ Complete the four (4) general education courses by the end of the Spring 2011 semester.

Step 2 ______ Complete the Test of Essential Academic Skills (TEAS) by the application deadline (May 31st).

Step 3 ______ All college transcripts should be on file with the Ivy Tech Bloomington Registrar’s Office by the application deadline. Ivy Tech transcripts are found through your Campus Connect account. (You may request assistance from the Records and Registration Office to help you locate transcripts on Campus Connect)

Step 4 ______ Submit application documents by deadline.

Please return the following pages:

- Application (see page 10 of this packet)
- Completed Evaluation Grid (see page 11 of this packet)
- Copy of TEAS V. test results (a copy is given to the student upon completion of the test)
- Copy(s) of all college transcripts (if not on file with Bloomington Registrar’s Office)
- Checklist for Radiation Therapy Program (this page)
- All items must placed together in an envelope or portfolio

Incomplete applications will be declined.

It is your responsibility to turn in the completed required paperwork; we will not contact you if your application is incomplete.

Applications may be hand delivered, mailed, emailed or faxed to:

Ivy Tech Community College – Bloomington

Radiation Therapy Program
Frequently Asked Questions (FAQ)

1. How many students do you accept every year?
Presently it is 8 per year.

2. How many applications do you receive?
It varies from year to year but average is around 20 - 30.

3. Is there a waiting list?
No, we do not use a waiting list. If an applicant is not selected, then he or she must reapply the following year.

4. What is your deadline for the application?
The deadline is the last business day of May.

5. When are students selected? How will I know if I am accepted?
The selection process will be early Summer semester. Students will receive a letter from the Program Chair regarding acceptance, non-acceptance, or alternate status.

7. Where do I take the TEAS?
See information about TEAS in the selection process of this packet. TEAS can be taken at the Workforce and Assessment/Testing Centers at most Ivy Tech campuses.

8. What do I need to score on the TEAS?
See page 9 of this document for TEAS requirements.

9. How can I study for the TEAS?
There is a Pre-Test manual for the TEAS test available in the Ivy Tech bookstore. For sample questions and testing tips go to www.atitesting.com.

10. How are students selected?
The selection process is decided by a point system. See point distribution document in this packet.

11. What do I need to do if I am accepted?
If you are accepted into the Radiation Therapy Program, you will need to do the following:
- Attend the mandatory summer orientation session.
- Submit current immunizations by a medical doctor.
- Have a TB skin test.
- Have a current Healthcare Provider CPR card.
- Hepatitis B surface antibody shot is recommended but is optional. Details will be sent prior to starting the program.
- Submit to a criminal background check and drug screen.
- Required to travel to the various clinical sites.
12. **What happens if I am not accepted?**
   If the student is not accepted the student may...
   - Reapply the following year.
     - Students must submit a new application portfolio
   - Consult with your advisor for other programs that you may complete or be eligible to pursue.
   - Discuss with faculty areas that need to be improved.
   - Discuss with faculty an alternate plan.

13. **What is the cost of the program?**
   The program is 70 credits so multiply 70 x the present tuition for ITCC (you can go to http://ivytech.edu/why-ivy-tech/half-the-cost.html for current tuition).
   Other cost includes:
   - Program Scrubs. Purchased in bookstore for approximately $35 per pair.
   - There is also a cost for books. This too will vary according to market value but I would estimate to be around $1,200
   - Students will also travel to a variety of clinical sites so gasoline is another cost.
   - Radiation Monitoring badge
   - Clinical computer record access

15. **Can I work and be in the program?**
   You can but we do not recommend it. The regular hours of attending class and going to clinical are about 32-34 hours a week and you still need study time on top of that.

16. **What do I do if I've already completed a college degree?**
   Have your official college transcripts sent to Bloomington Ivy Tech to be evaluated. The evaluation will determine what classes will transfer and what additional courses need to be completed.

17. **Do I have to drive to Bloomington for RDTH classes?**
   Yes, the program is Bloomington based and students are required to attend classes at this campus. The program also has a lab facility located in downtown Bloomington.

18. **What if my criminal background check or drug screen comes back positive?**
   The student may or may not be able to complete the program’s clinical portion. The clinical portion is a requirement for graduation. We strongly encourage you to inform us of any possible issues that may show up on your background check.
